How to Get Started in Real Estate Investment

Welcome to the *Street Smart Diva* Website. This Video will discuss the very first action steps I took over 14 years ago to get started in Real Estate.

The Video talks about overcoming the 2 big myths about Real Estate Investment.

1. You need money to invest in Real Estate
2. There is so much to know... it would take me years

I also give you the action steps I used to build my confidence about being an Investor and exactly how to perform these steps. Confidence is what keeps many people from getting started.... So this video and the 2 that will follow will help that immensely.
